PPG’s Deltron® 2000 (DBC) Basecoat is a state-of-the-art, premium quality basecoat/clearcoat system designed to reproduce the hi-tech O.E.M. finishes found on today’s import and domestic vehicles.

Deltron® 2000 (DBI) Interior Color was developed for interior and underhood color matching purposes. It is mixed directly from the Deltron® Mixing Service. DBI must be reduced with the appropriate DT Reducer and does not require clearcoating.
